Tunnelite

The Atlite Tunnelite design is flexible so it can be used in a variety of applications. Manufactured mainly to suit Metal Deck Roofs the Tunnelite is available in Single units or in a continuous run where a standard skylight would be restricted. With multiple glazing options the tunnelite is a very economical way of lighting a large area.

- Available in Single Units or Continuous runs
- Can be installed onto a CGI or Tile Roof with special flashings. POA
