

Atlite Skylights

'Sky's the limit'

Quality Endorsed Company
AS/NZS ISO 90 LICQEC 13

Gaz Bar System

Constructed in Aluminium or Steel, the Atlite GazBar System is without doubt the highlight of anyones home or office. Specifically designed for large projects where the area of light required is far greater than what a conventional skylight can produce. From design to construct Atlite Skylights can complete the entire project to specifications.
